

INTRODUCTION

If a DJ/Producer is measured by consistency then surely Klaus Hill is up there with the greatest. For over a decade Klaus has filled rooms with his trademark ball & wall tearing sound that has seen him become a firm favourite on the Australian and worldwide DJ circuit and a Producer whose sound is instantly recognisable.

Enter 2009 and Klaus Hill has honed a new sound that can only be described as fresh, wobbly and well, so Klaus it hurts! "*Boombaclart*" (featured on the Ministry of Sound Annual 2008) was a call to arms from a Producer who knows how to break stale formulas and create a party like no other. His "*Dirt Diver*" EP on ground breaking label, *Potty Mouth*, turned even more heads in the dance community, defying as many genres as it embraced. Support for his new sound has come from the international djing elite, including The Plump DJ's, Micky Slim, Trevor Lovey's, Jesse Rose and Switch.

"Boombaclart is one of the freshest tunes I have heard in ages. It brings a smile to everyone every time."

Goodwill

"Klaus Hill is my pick for the one to watch for '09!"

Tommie Sunshine

"The Aston Shuffle love Klaus Hill, he makes us feel warm and tingly inside. His productions are so tight and always do lots of damage on the floor."

The Aston Shuffle

"Klaus has one of the freshest most innovative sounds I have heard for years. I am both excited & proud to have him on board with Bombsquad and I predict that 2009 is going to be huge for him. The man is fuckin dangerous."

Micky Slim

As a resident, guest DJ or Producer the hallmarks of the Klaus run throughout when the big man of dance is involved. Unique, inspired and original, watching Klaus pogo his way through a DJ set is a sight to behold!

Klaus tours the world routinely where European and Asian audiences are thirsty for the big man to give their systems a workout. In Australia he regularly shakes the biggest rooms in the country to their foundations including institutions such as Home and Family.

With his latest productions reeking more havoc than a dingo stealing a baby, now may be a goodtime to gasp at the length and breadth of the Klaus Hill back catalogue. Take a seat; you'll be here for a while.
